Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Discover & Open FitBuddy	Stage 2 Enter Fitness Details	Stage 3 Get AI Recommendations
Actions <i>What does the customer do?</i>	- Opens FitBuddy in the browser - Views the home page - Reads what the app offers	- Fills in the form with fitness details and goals - Submits the form - Waits for the response	- Reads the Gemini-generated fitness guidance - Follows or notes the suggestions - Returns to ask a new question
Touchpoint <i>What part of the service do they interact with?</i>	- Home page (Jinja2 template) - Navigation and user interface - Get Started button	- Input form on the web page - FastAPI routes and input handling - Loading / processing screen	- Results page - Gemini AI response - Option to try another query
Customer Thought <i>What is the customer thinking?</i>	"What can FitBuddy do for me?" "Is it simple to use?" "Will it suit my fitness goals?"	"Is my information being understood?" "How long will this take?" "Did I fill everything correctly?"	"Is this relevant to my goals?" "Can I trust this advice?" "Can I get a different suggestion?"

Phase of Journey	Stage 1 Discover & Open FitBuddy	Stage 2 Enter Fitness Details	Stage 3 Get AI Recommendations
Customer Feeling <i>What is the customer feeling?</i>	Curious and hopeful	Engaged, but slightly impatient while waiting	Satisfied and motivated
Process Ownership <i>Who is in the lead on this?</i>	Siva Sundari V (UI design) Praveena K (Jinja2 templates)	Bhavana A (FastAPI backend, routing, input handling) Praveena K (template-backend link)	Rajashree K (Gemini AI integration) Sharmila D (core functionality, coordination)
Opportunities <i>How can we improve this stage?</i>	• Clear, welcoming home page • Short introduction to features • Responsive, user-friendly layout	• Input validation with clear error messages • Loading indicator while waiting • Helpful placeholders and examples	• Refine Gemini prompts for relevant answers • Present results in a clear, structured way • Add a regenerate option and a safety note
