

Project Demo Planning

Date	2 October 2026
Team ID	SWTID-2026-5625
Project Name	FitBuddy
Maximum Marks	1

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the team and FitBuddy, and explain the fitness-guidance problem the project solves.	2	Sharmila D (Team Lead)
2	Solution Overview & Architecture	Explain the overall application architecture and how the frontend, FastAPI backend and Gemini AI work together.	2	Siva Sundari V
3	User Interface & Templates	Show the user-friendly interface and the dynamic Jinja2 templates connected to the backend.	2	Praveena K
4	Backend Workflow & Routing	Explain the project workflow, FastAPI routing and how user input is handled.	3	Bhavana A
5	Gemini AI Integration & Live Demo	Enter sample inputs live and show the AI-generated responses from the Gemini model.	3	Rajashree K
6	Local Deployment, Conclusion & Q&A;	Show the application running locally, summarise the outcomes and answer questions.	3	Sharmila D (Team Lead)

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Team introduction (5 members) and the need for a simple AI-powered fitness companion.
2	Solution Overview	FitBuddy built with FastAPI, Jinja2 templates and Gemini AI; runs locally.
3	Live Feature Demonstration	Walk through UI, submit user input, show routing and Gemini-generated output.
4	Q&A; Session	Each member answers questions on their own module (backend, AI, frontend, templates).
